Athletic Training Minor

The Athletic Training minor allows students to complete some of the required courses to qualify for the Texas Licensure exam to become a Licensed Athletic Trainer within the state of Texas. The state also requires completing 1800 apprenticeship hours under the supervision of an athletic trainer, which must be completed over a minimum of five fall and/or spring semesters. Students who want to become a Certified Athletic Trainer (ATC) will need to pursue a master's degree in a CAATE accredited Athletic Training program upon completion of their bachelor's degree. Students should contact the Health & Human Performance Department for more information.

Students must have and maintain a 2.5 overall GPA in order to take 300- and 400 level classes in the program.
